

Valencia™ Biosense

Created with intent, a coated fabric with functionality and purpose

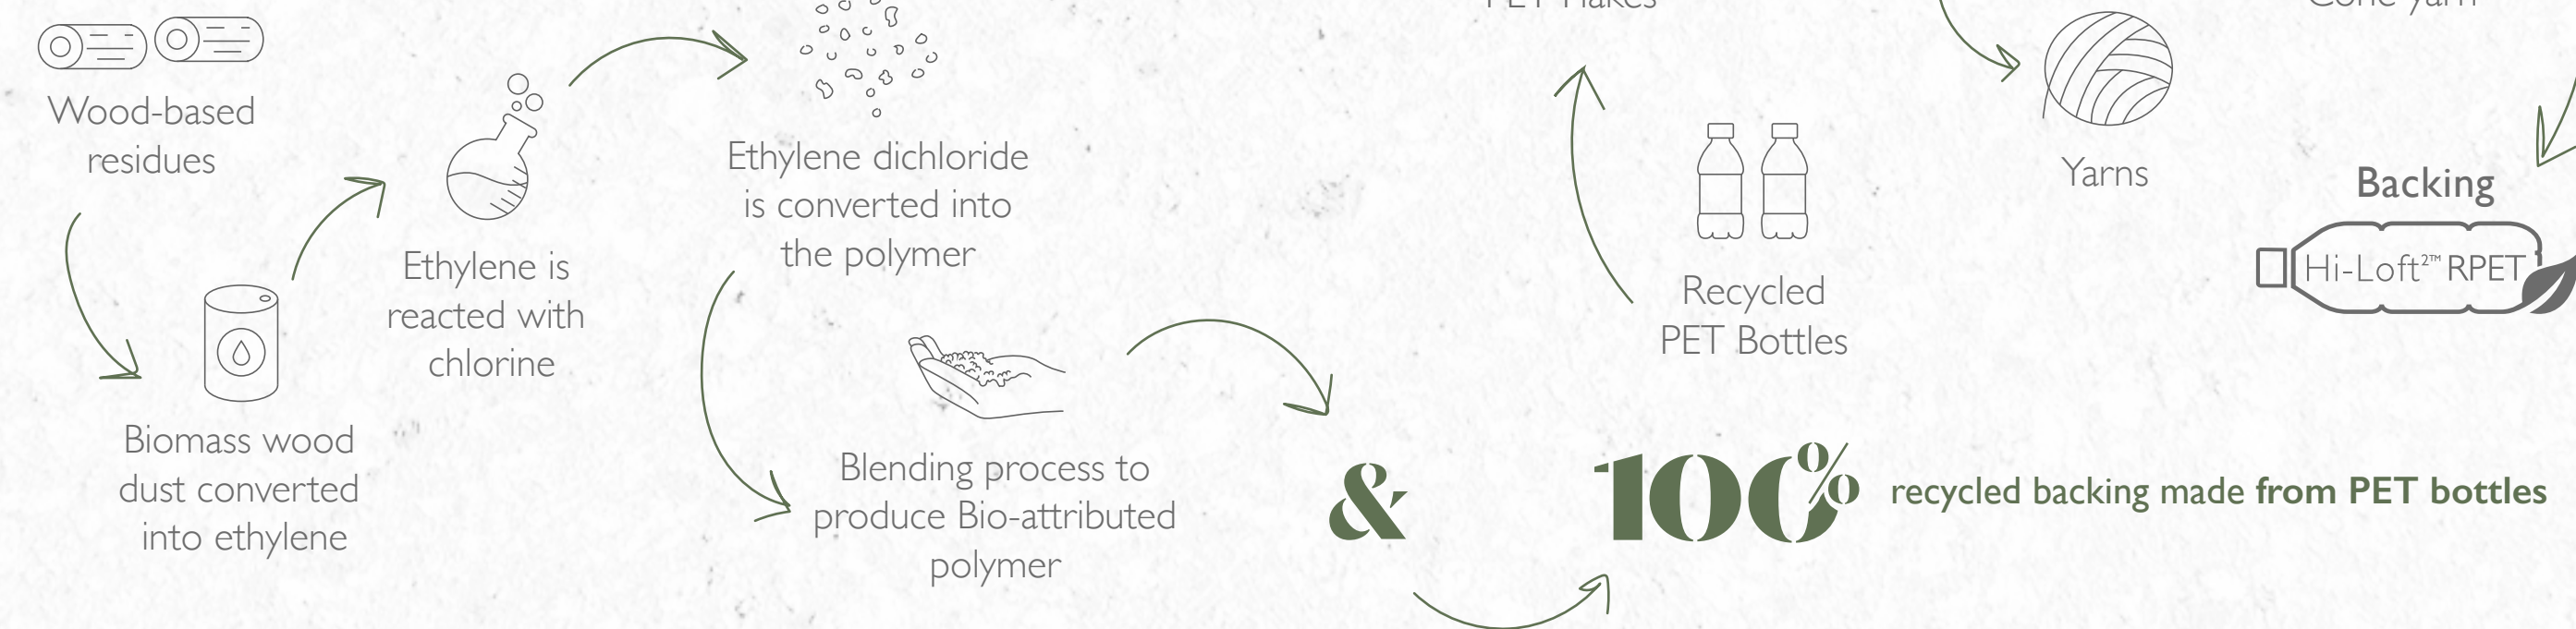

SPRADLING[®]
For the long run

Sustainability shines at Spradling®

An icon reborn. Building upon the legacy of the acclaimed Valencia™ faux leather design, Valencia™ Biosense seamlessly integrates sophistication with sustainability.

The path to create a new coated fabric made with purpose

Over **50%** of the polymer is crafted using **bio-attributed components** sourced from the forestry industry

Your choice matters

360 recycled plastic bottles are used to make **30** meter roll of our Hi-loft RPET backing.

This means that for every meter you purchase, you are **recycling 12 bottles***

*The calculation is based on the weight of a 500ml bottle, which is 17g

This process emits **12.5 kilograms** less of CO2 and eliminates **6.2 kilograms** of landfill waste

SUSTAINABLE PRODUCT PROFILE

Backing	Recycled Hi-Loft Yarns	GRS Certified
Attributes	Phthalate Free Skin Safe Sensitization and Irritation Biocides Free	Antimicrobial Additives Free Biocompatibility Cytotoxicity
